Art in Nature CAMP

LEARNING OUTCOMES

During camp your children will participate in a variety of hands-on activities and experiences that will foster their artistic skills and deepen their connection with nature. As they explore and create, they will achieve the following learning outcomes:

1. Creative Expression: Unleash imagination and express through diverse art forms, fostering a unique artistic voice.
2. Nature Appreciation: Deepen appreciation for natural beauty whilst inspiring environmental stewardship.
3. Observation Skills: Enhance nature observation, notice details, patterns, and textures for artwork.
4. Problem-Solving: Encourage creative problem-solving, think innovatively in artistic challenges.
5. Fine Motor Skills: Refine fine motor skills through hands-on art activities, improving dexterity and control.
6. Environmental Awareness: Promote eco-friendly practices, use natural materials, cultivate sustainability understanding.
7. Confidence and Self-expression: Build confidence, express through artwork, foster pride in creative achievements.

"Nature and art are not just sources of beauty, but also pathways to wellness and personal growth. They have the power to inspire, heal, and nourish our souls, unlocking the boundless creativity and inner peace within us." -
Unknown

Example Experiences

ART IN NATURE CAMP

Embark on an extraordinary artistic journey where your children will engage in a diverse range of inspiring experiences. From recycling paper and creating with wood, to exploring the vibrant world of natural dyes and igniting their creativity around a campfire, our camp offers a multitude of amazing opportunities for your child to explore their artistic potential in harmony with the wonders of the natural world. Here are some examples of what your child will do at camp!

CAMPFIRE CHARCOAL SKETCHING

We'll ignite your child's creativity as they take on the exciting task of lighting and tending to a campfire, all while crafting their very own charcoal drawing sticks. Guided by experienced instructors, they will learn the art of fire-building, carefully nurturing the flames that will transform natural materials into rich, smoky charcoal. With these unique tools in hand, they will delve into the world of sketching, capturing the beauty of the surrounding nature and still life subjects with their handcrafted charcoal sticks.

CREATING WITH TOOLS

Children will embark on a journey of creativity using forest school tools and natural or repurposed wood. Under the guidance of skilled instructors, they will learn the safe and proper use of these tools, unlocking the potential to shape and sculpt their imaginative ideas into tangible creations. From carving intricate designs to constructing unique structures, your child will discover the joy of working with their hands and the beauty of transforming raw materials into something beautiful or something useful.

NATURE DYEING

Immerse your child in the enchanting world of natural dyes as they unlock the vibrant colors hidden within botanical wonders. Through hands-on exploration, they will discover the art of eco-friendly fabric dyeing using botanical materials. Guided by experienced instructors, they will learn how to extract pigments from plants, flowers, and other natural sources to create stunning hues and patterns on various fabrics. From delicate imprints of petals to bold and abstract designs, your child's creativity will soar as they experiment with different techniques and combinations.

CYANOTYPE PRINTING

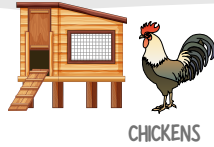

Unleash your child's creativity with the enchanting art of cyanotype or sun print paper. During this engaging experience, children will collect and carefully press a variety of natural items such as leaves, flowers, and feathers. They will witness the transformative power of the sun as they arrange their treasures on cyanotype paper. With each exposure to sunlight, the paper will undergo a magical change, capturing the intricate details of the pressed items and creating lasting prints. Through this hands-on activity, children will discover the fascinating relationship between light, nature, and art.
